### About This Content

**Las Vegas is a Desert Mirage, a Jewel Amongst the Sands.**

The Golden Grin Casino Heist DLC is the 24th DLC pack for PAYDAY 2 and is the final contract from the Dentist. She boasts more Five Diamond hotels than any other city in the world. Her shine and sparkle attracts tens of millions of dreamers every year. Dreamers that are ready to drop their mortgage on the slots and tables of the casinos. And no casino shines brighter than the Golden Grin. It also comes with the CAVITY 9mm rifle, 4 casino themed masks, patterns, materials and 5 achievements.

### Key Features

---

•**Introducing the Golden Grin Casino heist** – Funded with foreign investment, the Golden Grin broke ground in '45, and saw its first guests roll the dice early in '46. It quickly gained a reputation as a place where all appetites were satisfied. Crooked games, sex parties, and violence for hire. It made international headlines with the infamous Thanksgiving Massacre in '57. By the 60's, its name was a deserved byword for Vegas' darker, deadlier and seedier side. All the greats have made their name in the City of Sin. Make yours at the Golden Grin.

•**1 new rifle** – An additional rifle called the CAVITY 9mm is added to the game.

•**3 weapon modifications** – The CAVITY 9mm comes with 3 new weapon modifications.

•**4 new melee weapons** – A series of new melee weapons inspired by the casino scenery have been added to the game. How about fighting using an actual taser?

•4 new masks – Four new masks have been added, ranging from a gladiator like helmet to your obligatory green visor cap.

•4 new patterns – Four new patterns inspired by the world of gambling.

•4 materials – Four new materials have been added to the game that are inspired by the world of gambling.

•5 achievements – Five new achievements have been added to test the skill of you and your crew.

Nice Game !. That was pretty damn cool. I hope this is the springboard to something bigger. This would be a great RPG dungeon crawler. Add inventory and loot. :D. Nausiating, and thats saying something because I play a LOT of vr games, and the controlls are wonky and weird and dont always do what you want, as well as me just not being too satisfied at all with solving the puzzles...its not awfull but overall I have no disire to pick this game up and start playing it again...so now its just going to sit in my lybrary and collect dust...

4V10. Super fun clicker game, with an interesting story going for it. 13/10. Fuel is at center of many wars.

Hi everyone...Its a very easy to play, and very fun. Recommended to those, who got a sense of humor :)!!. I really enjoyed this game. it was better than i was expecting.. A pretty nice little game. If you are a fan of Ducati and or music buy Lacuna Coil by this when it is on sale.

The bikes look nice enough and the tracks are interesting. It just starts to feel the same after a few races.

I barely have a bike for 2 races before I'm onto the next bike, so I don't form any attachment. The bikes themselves don't have any upgrades.

I finished the Class C championship before writing this review.

TIP: You will need to run the exe in compatibility mode on most modern PCs. Lots of fun playing goalie in this game. There are some things that could use improvements like pucks despawning, not having a body and having the stick clip through the ice, but with that said it is still enjoyable in it's current state. I could easily see myself paying (or kickstarting) an improved version of this kind of game.. Fun little game, really neat in VR.. Well it wasn't an exploration game at all, just hidden object search followed by hidden object search. OK it was cheap but for the amount of time I played this, it was way too expensive.

Not sure how this gets Very Positive for recent reviews when I can see 5 negative ones. As for the 'great music', it was on a very short loop that was very noticeable.

Play something else that's more interesting, there is no need to endure stuff like this.. I would smash :]. This is an Early acc game. with that said there are bugs and its not optimized . How ever with that said ive have played many games that are EA and this one is fun . there is so much more this game will offer in the future it has had many setback and yet the creators of the game still pushed forward to make it. I wish there was more of the dev to player contact . so they can fill in some of the blanks and give us a better idea of things to come but they are working it on it . much like all the smaller games out there that didnt seem like they were making headway till the gamers really took a look at the game. this game is also having the same problem . i would say to anyone looking for a Hardcore sandbox mmorpg to buy this game . it may take time for it to really get off the ground but when it does i think it will be one hell of a game. #dragonlife#TOA. I love a mystery and I found the demo intriguing, I dont regret paying the small fee to buy the game and complete the story.

I would say that the story isnt the longest or most elaborate, it is rather linear, but its enjoyable for people who just like the aspect of interacting with a little story.

I would probably rate it 6/10 overall. Again, its not really an elaborate game but you might get some enjoyment from the first playthrough as I did.
